GAMMASOFT ANF

Softener for cotton fabrics and mixed with synthetic fibers.

Chemical nature: derived from amino esters in aqueous solution Ionic charge: amphoteric
Incompatible: no

Product Properties : Gammasoft ANF is a softener on fat basis that does not alter the degree of white.

Doses of use: the amount of use of the product, recommended for application to exhaustion, change with the tissue to be treated.

Specifically:

- For woven fabrics of cotton terry the recommended amount is 2-4 g / l
- For cotton fabrics in the recommended amount is 2-4 g / l
- Rayon fabrics for the recommended amount is 2-4 g / l
- For fabrics of nylon-PES in the recommended amount is 1-2 g / l
- For acrylic fabrics of the recommended amount is 1-2 g / l

The amount of use of the product, recommended for application by padding, is 15-30g/l.

Preparation: dissolve **Gammasoft ANF** with water at 60°C then bring the bath to the desired concentration with cold water.

Special Notes: keep containers closed after use; the product does not stand frost.
